Lign is a Belgian family business specialized in the design and production of lighting for furniture and hotel rooms.

Lign focuses on a strong partnership in the development of your product. Our lighting puts a beautiful & high-quality finishing touch to your product.

The in-house prototype department allows great flexibility in our product range: Adjustments and customization (according to your preferences) are possible, starting from 20 pieces!

Lign has its own production department. This guarantees excellent quality and finish for every product. We have extensive experience with lighting and furniture.

This makes Lign the ideal partner for the production and development of new cabinets, wardrobes and beds with integrated lighting.
